### **APPLICATIONS**

**AGRITRANS** is a multifunctional lubricant suitable for tractors and mobile plant equipment, containing the necessary extreme pressure and anti wear additives to protect components.

AGRITRANS has been specifically designed to lubricate transmissions, differentials and final drive gears.

**AGRITRANS** is designed to transmit power for steering and brakes and implement hydraulic drives and provide proper cooling and frictional properties for wet brakes and power take off clutches.

**AGRITRANS** contains a unique seal conditioning agent and foam inhibitor.

AGRITRANS will also provide excellent protection against corrosion and rust.
